**"OVER 30 YEARS' EXPERIENCE IN FINE JACK BUILDING!"**

# up a Chair...

## let's talk about *Ausco* JACKS !

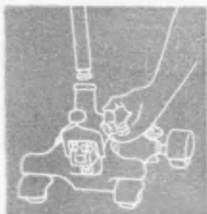

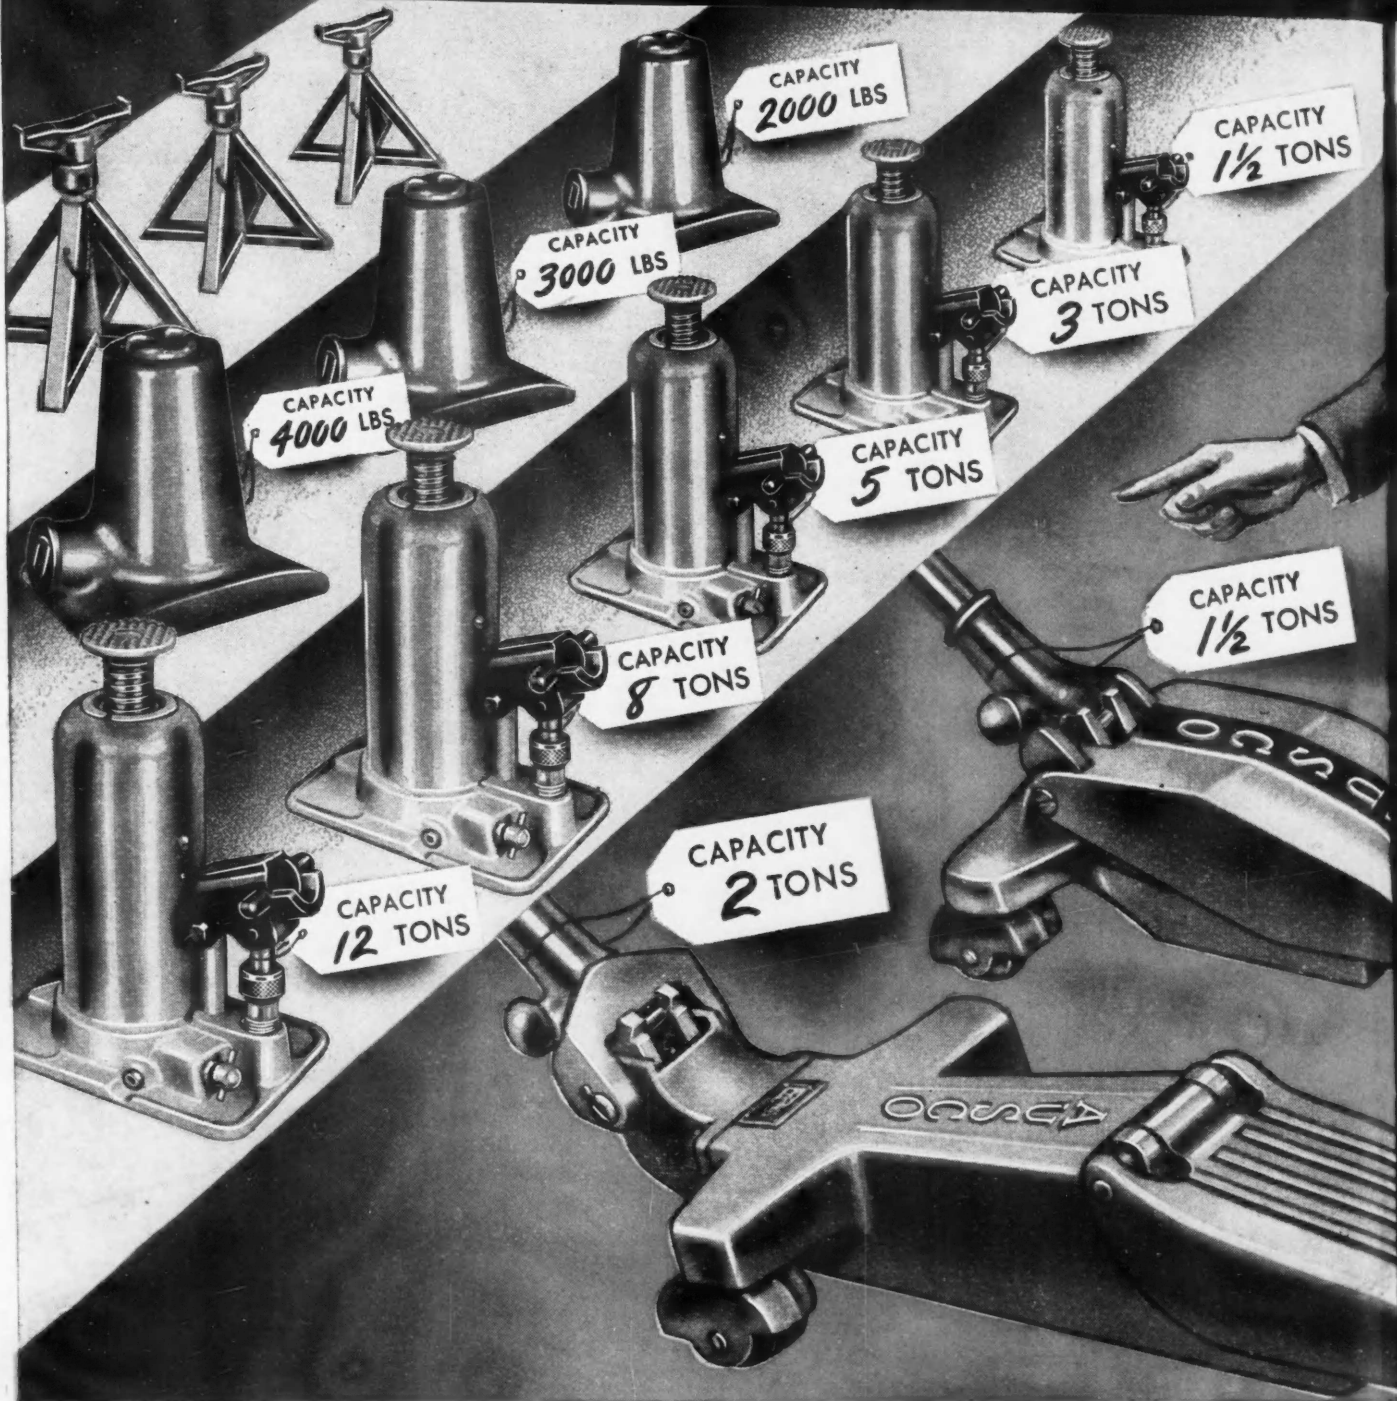

**Ausco's are Built to YOUR Job Specifications!**  
 Everything you could ask for in a curb jack is built into the *new Ausco Hydraulic Curb Jack*. It's extra rugged to take years of hard wear... the power unit is fully enclosed for protection against life-cutting dirt. Large, free-moving swivel wheels permit instant "spotting", and it raises a ton-and-a-half car up to 18½ inches, quickly and easily... a turn of the handle lowers it at the speed you want. The power unit is easily removed for quick servicing. There are no exposed springs to snap or snag. Write TODAY for full details on this and other Ausco Jacks! Auto Specialties Mfg. Co., St. Joseph, Michigan, Windsor, Ont., Canada.

# AUSCO Jacks

\* FULLY PATENTED, Ausco Trademark Reg. U. S. Pat. Off. G-2610

FACTORIES: St. Joseph, Michigan; Benton Harbor, Michigan; Hartford, Michigan; Windsor, Ontario, Canada

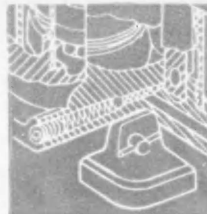

# Talk about a real

**EXCLUSIVE SAFETY FEATURE**  
on hydraulic floor and curb models is AUSCO's removable handle. It eliminates the floor hazard of stumbling over it and, when removed, it also acts as an extra safety catch.

**EASY-TO-REMOVE POWER UNIT**  
is to be found on AUSCO Hydraulic Floor Jacks. It is designed for ease of assembling and quick dismantling to service. Just remove four bolts and the entire unit will slide out.

**"IN-LINE" VALVE ACTION**  
on hydraulic axle jacks gives smooth, dependable lifting power with no lost motion or effort. Valves are easily accessible so jack need not be dismantled for cleaning.

# SELECTION!

... with *Ausco* you always find the

# Every Truck that goes through Your Shop...

IS A GOLDEN OPPORTUNITY TO

## Sell a New AUSCO Jack!

Your golden opportunity for selling AUSCO Jacks knocks every time an owner has his car or truck in your shop. Look in the tool compartment or under the seat. Whenever you find an old, obsolete jack or none at all, show your customer the latest AUSCOs. Call his attention to the one which best meets his needs from the full line of hydraulic and mechanical jacks for every car and truck service purpose.

Point out that for smooth dependable lifting power, you can't beat

AUSCO's Series D-1500 Hydraulic Axle Jacks. Exclusive "in-line" valve action starts the lifting operation instantly; simultaneous with the first stroke of the handle to eliminate all lost motion and wasted effort.

For efficient mechanical performance, recommend AUSCO's Series 400 Mechanical Axle Jacks. Twin telescoping tubes and screws give them an unusually high lifting range with panel trucks or other lightweight service vehicles.

Be sure to see all the new AUSCO Jacks at your nearest AUSCO Jobber. If you have not become acquainted with him yet, write us for his name, as well as a 1948 AUSCO Catalog. Address:

Auto Specialties Mfg. Co., Dept. MA-10, St. Joseph, Michigan.

# AUSCO Jacks

R-3021

Stepped-up schedules, long hard runs and grinding stop-and-go operations make quick, efficient on-the-spot servicing a must for every trucker. The equipment of every truck must include an effective, dependable jack to facilitate such servicing. By calling these facts to the driver's attention, every truck which goes through your shop becomes a potential jack sale.

### AUSCO HYDRAULIC AXLE JACKS

Ram assembly easily removed for servicing... exclusive patented base for "self-aligning" of load... "Instant-flow" safety release screw... piston cup made of highest quality, non-wearing material.
